## Ref : 119 MEP ARMS

### DURATION :

To be determined according to the client's specifications. Includes the preparation, collection and analysis of data from the Aircraft Rescue and Fire Fighting Service (ARFFS), the elaboration and restitution of the Operational Instructions Book (OIB)

### AIRPORT STRUCTURES CONCERNED :

Any airport entity wishing to set up an Aircraft Rescue and Fire Fighting Service (ARFFS) to :

- Meeting regulatory requirements
- To meet the criteria for airport certification under the Safety Management System (SMS)
- Determine the level of protection to be provided with or without modulation
- Organising the fire station
- Drawing up the Operational Instructions Book (Recueil de Consignes Opérationnelles) planning the activity of the S.S.L.I.A.: administrative and operational organisation, definition of means, staff training programme, reports, operational intervention tactics
- Enhancing the value of the airport in the context of the relationship with the State services and the airlines

### REGULATORY REFERENCES :

- Order of 18 January 2007 on the technical standards applicable to the aircraft rescue and fire-fighting service on aerodromes
- Commission Regulation No 139/2014 of 12 February 2014 laying down requirements and administrative procedures for aerodromes
- **ADR.OPS.B 010**
- Annex 14 to the Convention on International Civil Aviation, Volume 1, Aerodrome Design and Operations
- Airport Services Manual, Part 1, Rescue and Fire Fighting, Doc 9137-AN/898

### SCHEDULE :

- Given the specificity of the service, the date will be defined jointly

### PRICING CONDITIONS :

- The estimate will be drawn up taking into account your requirements (duration, etc.). Please contact us.

## SETTING UP THE AIRCRAFTS RESCUE & FIRE FIGHTING SERVICE

### COMPLY WITH REGULATORY REQUIREMENTS

### METHODOLOGY

- Documentary analysis of the data provided by the client:
  - Aeronautical data
  - Dimensional characteristics of the airfield
  - Existing fire-fighting resources
- Meeting and exchange with the aerodrome operator and local air traffic authorities;
- On-site observation of the Aerodrome Area (AA) and the Aerodrome Neighborhood Area (ANA);
- Drafting of the Compendium of Operational Instructions (COI) to meet the requirements of the certification.
- Advice on the choice of procurement of fire-fighting and rescue equipment;
- Support for your management staff.
