## Ref : 119 REA PRA

### NUMBER OF TRAINEES :

8 per session

### DURATION OF THE COURSE :

2 days (14 hours)

### TARGET AUDIENCE - PRE-REQUISITES :

Any person in charge of animal risk prevention wishing to develop their wildlife skills to optimize the effectiveness of their interventions by implementing appropriate strategies, in accordance with the Order of 10 April 2007 on the prevention of animal peril on aerodromes.

### SATISFACTION INDEX: 100

- Calculated on the basis of the last three years

### REGULATORY REFERENCES :

- Order of 10 April 2007 on the prevention of animal peril on aerodromes
- Decree No. 2007-432 of 25 March 2007 on the technical standards applicable to the aircraft rescue and fire-fighting service on the aerodromes of Mayotte, the Wallis and Futuna Islands, French Polynesia and New Caledonia, as well as to the prevention of animal peril on aerodromes
- Commission Regulation (EU) No 139/2014 of 12 February 2014 laying down requirements and administrative procedures for aerodromes in accordance with Regulation (EC) No 216/2008 of the European Parliament and of the Council
- Annex 14 to the Convention on International Civil Aviation, Volume 1, Aerodrome Design and Operations
- Airport Services Manual, 3<sup>e</sup> part, Wildlife Risk Prevention and Mitigation, Doc 9137P3

### SCHEDULE :

- Available at [www.c2fpa.fr](http://www.c2fpa.fr)

### PRICING CONDITIONS :

- The estimate will be elaborated by integrating your requests (pedagogy, transport, accommodation, catering...). Please contact us.

### ACCESSIBILITY FOR PEOPLE WITH DISABILITIES :

- Not applicable

## TRAINING IN ANIMAL SPECIES RECOGNITION

### COMPLY WITH REGULATORY REQUIREMENTS

### EDUCATIONAL OBJECTIVES

- Develop knowledge of birds and mammals;
- Know the main species involved in collisions;
- Learn about species classification and optimize the use of technical guides;
- To promote the identification of animals by taking into account morphological, behavioral and environmental characteristics;
- Know how to recognize species from signs of presence;
- Recall the legal classification of species;
- To know a method and tools for monitoring animal species in the context of animal risk management at airports;
- Know how to use observation equipment.

### PROGRAMME

- Morphology of birds and mammals ;
- Classification of species ;
- Behavior and environment of birds and mammals ;
- Legal classification of species ;
- Principles for the regulation of aerodrome animal populations ;
- Detection and identification of animals :
  - Presentation of the observation material
  - Use of data sheets and recognition guides
  - Interpreting evidence of presence

### TEACHING METHODS

- Theoretical lessons ;
- Methodological inputs ;
- Individual and group practical work;
- Adaptation of the training to the specificities of the aerodrome concerned;
- Wildlife observation and identification exercises;
- Interpretation of presence indices ;
- Positioning tests ;
- Continuous evaluation, individual assessment at the end of the course.
